

CUTLASS/4-4-2 IS ALL WE DO! IT'S OUR ONLY BUSINESS!

Greetings Fellow Olds Enthusiast,

And welcome to the 17th edition of our parts catalog! In our ongoing effort to provide you with the best parts and services for your Rocket Project, we have added many new items. Of course all are of the same high quality standards we are known for. And as with all previous catalogs, we are still dedicated 100% to
ROCKET POWER!

Cutlass and 4-4-2 is *still* ALL we do! (It's our ONLY business).

By taking a page-by-page look through this catalog, you will find we offer many products and services to make your restoration easier and more authentic. And at a price that gives you the most value for your dollar. With over thirty years of hands-on Rocket Power experience, you can always count on Supercars Unlimited for the parts proven to be the best for your Rocket Project.

Whether your Rocket Project is a daily driver, an all out concours show car, street/strip, strip only or whatever vision you have for your Cutlass, 4-4-2, Hurst/Olds or Vista Cruiser, we have what it takes to make you a winner.

We enjoy being involved with our customers projects. (Thanks for all the pictures). It gives us a certain sense of pride when we see the finished results featured in a magazine or on a show or race winners list. There is a sense of reward and satisfaction in knowing we helped you achieve your goal.

Let us know how we can help with your Rocket Project.

Rocket Power,

Greg Rollin.
Owner, Supercars Unlimited.

- BEWARE OF FAKES -

In an obvious attempt to create an association with our products, another supplier of Cutlass/4-4-2 parts has basically produced a duplicate of our catalog. Don't be fooled by imitators!

The items listed in this catalog are parts we have proven to be the best for your Olds. This comes from experience. Not from copying someone else. While there will always be wannabes, you can always count on Supercars Unlimited for the best products, service (and integrity).

4-4-2 By The Numbers

Component Identification And Authenticity Guide

Casting Numbers And Stamping Codes

1965-1972 400-455

Our book 4-4-2 BY THE NUMBERS, covers in detail, casting numbers and stamping codes as used on blocks, cylinder heads, carburetors, distributors, intake and exhaust manifolds, crankshafts, manual and automatic transmissions, differentials, VIN code and trim tag breakdowns. Plus much, much more!

A must read for confirming or carrying out a 4-4-2 or Hurst/Olds restoration.

We first published this book back in 1991, and we have recently updated it with even more information and photos!

56 pages, 29 detailed photos.

PART NUMBER 01-400

\$11.95

REMEMBER: CUTLASS/4-4-2 IS ALL WE DO! IT'S OUR ONLY BUSINESS. WE KNOW WHICH PARTS ARE CORRECT FOR YOUR CUTLASS, 4-4-2 OR HURST/OLDS.

SUSPENSION 02

Coil Spring Sets

That "Special Feel" comes from carefully selected coil spring rates. Our coil spring sets will duplicate the factory engineered ride quality and firmness as well as restore original ride height.

SUSPENSION 02

Front Suspension Control Arm Bushings

We sell only the original type rubber bushings. If you are considering using urethane bushings, keep in mind they are great for strictly race course usage. On the street, they create a harsh ride and have a tendency to "skip" over bumps and dips found on most roads. This results in a loss of handling! Road noise is increased with harder bushings. Use the real thing for the best real world results.

YEAR	APPLICATION	PART NUMBER	PRICE EACH	QUANTITY PER CAR
64	Upper A-arm shaft kit with bushings.....	02-112.....	\$129.95.....	2
65-70	Upper A-arm bushing.....	02-056.....	7.95.....	4

66-73	Lower A-arm bushing(front bushing on arm).....	02-084.....	10.49.....	2
66-72	Lower A-arm bushing(rear bushing on arm round).....	02-086 (2).....	14.99.....	2
66-72	Lower A-arm bushing(rear bushing on arm oval).....	02-088 (2).....	14.99.....	2
73	Lower A-arm bushing(rear bushing on arm).....	02-086.....	14.99.....	2
74-77	Lower A-arm bushing(front bushing on arm).....	02-074.....	13.49.....	2
74-77	Lower A-arm bushing(rear bushing on arm).....	02-082.....	13.49.....	2

NOTE: (1) This is an offset shaft that will provide additional positive camber adjustment. Compensating for the inherent frame sag. Complete kit includes shaft, both bushings, washers and lock nuts.

(2) Rear A-arm bushings on 66-72 models are either round or oval shape. You will need to determine which design your car is equipped with before ordering. The bushing is visible from the underside of the A-arm on vehicle.

Frame Braces

These rear suspension reinforcement brackets connect the lower control arm front mount to the rear crossmember. In high horsepower applications, stick shift cars, trans brake equipped cars, the lower control arm mounts can be literally ripped off the frame. The solution to this potential problem is to add a set of these braces. The bolt in design makes installation easy. No cutting or welding is required. Fits all 1964-1967 models. PART NUMBER 18-108....PRICE: \$89.95 pair.

Steering/Suspension Coatings

To duplicate the original natural finish of many steering and suspension components, we offer two choices. A cast iron paint which is a close duplication of a natural color. And will provide a long lasting finish. Sold in 12 oz. spray cans. PART NUMBER 14-292 PRICE: \$8.99

For concours restorations, we offer a spray coating that will maintain the actual metal finish while providing protection from rust for years. Sold in 11 oz spray cans. PART NUMBER 16-002 PRICE: \$10.49

SUSPENSION 02

PERFORMANCE SUSPENSION PARTS

No-Hop Traction Bars

No-Hop bars are designed and engineered to eliminate wheel hop. As well as increase traction. Installed between the upper control arms and differential housing, No-Hop bars change the center of gravity towards the rear of the car. This forces the rear wheels into the ground under hard acceleration. Resulting in maximum traction without wheel hop. Complete kit fits all 64-72 applications.

PART NUMBER 02-226 PRICE: \$259.95

Aftermarket Sway Bar Kits

These anti-sway bars will dramatically improve handling over stock equipment. Complete kits include all mounting hardware. All part numbers listed are a bolt on design, and will require no permanent modifications to vehicle.

68-77	All Front.....	02-164.....	46.95

Air Lift Polyair Spring Kits

Air Lift airbags fit inside the rear coil springs. These are a very versatile product that will provide excellent results in a variety of applications. For drag race or street/strip vehicles, Air Lifts can be setup to preload the rear suspension for optimum equal wheel traction. Also helping eliminate wheel hop. Cornering ability is increased from reduced body roll. Also perfect for Vista Cruisers or other tow vehicles. Air Lifts operate with low air pressure, allowing support without a harsh ride. Air Lifts apply the load on the spring mounts where the factory designed. Air shocks on the other hand, push the extra load under high pressure, at an angle, against the shock mounts. These complete kits include two Air Lifts, all hoses and fittings. No permanent modifications to vehicle required. Air Lift Polyair Springs also feature a limited lifetime guarantee!

68-72	See footnote(1).	06-020...	97.49....	06-008...	1.99.....	06-014...	1.49
68-72	See footnote(2).	06-022...	85.95....	06-006...	1.99.....	06-014...	1.49

- NOTE: (1) For all models with hub and drum pressed together. New studs must be used when replacing drum.
 (2) For all models with separate hub and drum. New studs not required for replacement of drum.

(1) and (2). The two 68-72 styles can be identified by how the drum is removed from the vehicle. The pressed together style requires that the drum and hub be removed as an assembly (including removal of wheel bearings). With the separate drum/hub style, the drum can be removed simply by taking off the wheel and tire.

Front Brake Rotors

For vehicles with front disc and rear drum brakes. Manual or power assist. All include hub. Lug nuts listed are standard nuts. See Super Stock wheel section for more listings. All items listed are sold per each. Rotors include studs. Listings are U.S. or Canadian made (whenever possible).

Brake Hose Clips

Used where metal brake line joins the brake hose. Three used per car. Two front, one rear. Sold per each. PART NUMBER 54-090 PRICE \$ 2.49

Brake Metering Valves

Brake metering valves were used on 1967-1970 applications with front disc brakes. Located between the master cylinder and distribution block, the metering valve functions as a pressure balance valve. They direct pressure to the rear wheels first, preventing the discs from locking up. We offer rebuilt brake metering valves on an exchange basis only. We have most models in stock. However, we may need your old one for rebuilding. This will take approx. 2 weeks. In either case we will need your old metering valve BEFORE we can ship the rebuilt one. Please do not send bracket.

- NOTE: (1) Original dual bail design cylinder.
 (2) Line comes out of the front of cylinder.
 (3) Line comes out of the side of cylinder.
 (4) Single bail design. (See illustration).
 Original was a dual bail.
 (5) Early 1970 models used a dual bail cap/cover.
 This cylinder is as per illustration,
 And is 100% correct for 1970 1/2 thru 1972.

Master Cylinder Rebuilding Service

For original 1967-1969 disc brake (dual bail) master cylinders (and other special applications), we offer a sleeving and rebuilding service. For some applications we may be able to provide a core. For availability and pricing, please call or e-mail.

Power Brake Boosters

We offer brand new reproduction Delco Moraine power brake boosters. These licensed GM reproduction boosters are 100% correct as per original and include the proper "Delco Moraine" stamping on the front and are finished with the proper gold cadmium plating. Our kits also include master cylinder plunger rod, pedal clevis pin assembly, vacuum check valve, vacuum hose and two original style clamps.

Super Stock Wheel Parts

SUPER STOCK WHEEL IDENTIFICATION INFORMATION

The information listed below is to assist you in identifying Super Stock wheels. We do not sell complete wheels. Available parts are listed on the next page.

SUPER STOCK I

YEAR	SIZE	REMARKS
66-69	14X6	Chrome rim (1)
70-73	14X7	Uses trim ring (2)

- NOTES: (1) Will not fit 67-68 with disc brakes.
(2) Some 71 models have a chrome plated rim rather than a trim ring.

SUPER STOCK II AND III

YEAR	SIZE	REMARKS
68-69	14X6	No bezels used in 68
69	15X7	69 Hurst/Olds (1)
70-74	14X7	Bolt on center cap
75-77	14" or 15"	Push on center cap

NOTE: (1) Has chrome plated rim.

Super Stock II and III are the same wheel. The SSII is painted a charcoal-gray, SSIII's are the same color as the lower body. Both use 5 bezels surrounding the openings, and a snap on trim ring. 70 through 74 SSII's or SSIII's center cap is bolted on from the backside of the wheel. 75 through 77 SSII and SSIII's were available in 14" or 15" rims. Either 75-77 rim size uses the push on center cap.

BRAKE SYSTEM AND WHEEL PARTS 06

SUPER STOCK WHEEL PARTS

ROCKET POWER!

Rebuilding your engine can be one of the more expensive aspects of your Rocket Project. Component selection is critical for performance and longevity. And there are many choices available when it comes time to rebuild. Many of the items we list are our own products. This is because either no aftermarket part is available. Or because there is no **quality** aftermarket part available. For some applications we've found that even "name brand" parts are not always the best choice. Long ago, we came to the conclusion that what's inside the box is more important than the label on the box. Sometimes this costs more. And sometimes less. Our bottom line concern is offering the best parts available for your Rocket.

We've spent over 25 years (and many dollars) testing brands and combinations of parts to find out which ones work and which ones don't in an Oldsmobile engine. And yes, we've built some grenades along the way. The positive results of our research are listed by part number in this catalog.

The result is the best **value** for your Rocket. Ask around. Our reputation is well known as the leader in Cutlass and 4-4-2 mechanical parts. But beware of imitators. In an obvious attempt to create an association with OUR products, another supplier of Cutlass/4-4-2 parts even went as far as to produce a virtual duplicate of our catalog! While there will always be "wannabes", you can always trust Supercars Unlimited to provide the best for your Rocket.

ENGINE COMPONENTS 14

Piston Ring Sets

All sets listed are Sealed Power, Hastings or Perfect Circle premium sets. Featuring moly top rings and stainless steel oil rings. When ordering piston ring sets, be sure to state desired size - add size to end of part number.

 (3) Requires minor rod modification.

ENGINE COMPONENTS 14

Harmonic Balancer

Original equipment stock replacement balancer. To be discontinued upon stock depletion. See section 16- for other OE balancers.

ENGINE	YEAR	APPLICATION	PART NUMBER	PRICE
350-455	68-75	All except W-31.....	14-274.....	\$179.95

High Performance Harmonic Balancer

For high performance applications not requiring a SFI certified balancer, these high performance balancers are manufactured with a higher grade iron than OE balancers. They also feature a no slip outer ring that is degreed at 0 to 50 degrees and every 90 degrees. External balance per original. Drilled to accept stock pulleys for proper pulley/belt alignment. Fits 1968-1976 400 and 455. PART NUMBER 18-118
PRICE: \$214.99

SFI Certified Harmonic Balancer

For racing applications requiring a SFI 18-1 certified harmonic balancer (NHRA 10.99 and quicker), we offer an all steel Elastomer-type balancer. Elastomer-type balancers feature superior high frequency damping qualities and the ability to dampen ALL types of vibrations: torsional, axial and radial. Other dampner designs are limited to damping torsional vibrations only. Degreed 0 to 50 degrees. 6.6" diameter. External balance as per original. Drilled to accept stock pulleys for correct belt/pulley alignment. Fits 1968-1976 400 and 455. PART NUMBER 18-120
PRICE: \$499.99

High Perf Harmonic Balancer Bolt

Rated at 170,000 psi tensile strength, this high performance balancer bolt and washer are far stronger than the original. Fits all V8 66-77. Uses 12 pt. socket.
PART NUMBER 18-102.....PRICE \$ 26.95

Harmonic Balancer Repair Sleeve

Repairs balancers with wear groove from front seal. Eliminates oil leaks from worn balancers. Fits all V8's, 64-77. PART NUMBER 12-046....PRICE \$ 9.49

Crankshaft Pulleys

Replace your bent, rusted or missing crank pulley with our brand new correct reproduction. This two groove KJ code pulley fits all 1970-1975 350 and 455 applications without A/C or H/D cooling. Part Number 14-326 PRICE: \$59.95

ENGINE COMPONENTS 14

Factory Race Cam

This is a brand new duplicate of the "factory" 328/348 cam used by several record holding 455" drag race stockers. Based on a 107 degree lobe centerline, this cam features 243 degree intake duration and 262 degree exhaust at .050". .475" valve lift. Very rough idle. Use with 4 speed, or automatic with 3500-4000 rpm stall converter and 4.33 or lower gears. This cam is just plain *nasty* sounding! Produces outstanding horsepower and torque to 6000 RPM. Will pass NHRA tech for stock eliminator. 39 degree bank angle. PART NUMBER 14-248....PRICE: \$109.95

Adjustable Pushrods

Proper - and critical hydraulic lifter preload can be obtained by adding adjustability to an otherwise nonadjustable Olds valve train, For applications requiring a means of adjustment or geometry correction due to different base circle cams, surfaced heads and/or blocks, different thickness head gaskets, incorrect valve stem heights, etc. we offer these premium sets. In addition to adjustability, all are oil restricted (.040") to ensure adequate bottom end oiling. All sets are 5/16" diameter, so no machining or grinding is required for installation. All are sold as sets of 16. Instructions included.

High Performance Valves

Our high performance valves are one piece forged stainless steel. Featuring hard chromed 11/32" stems. In addition to their heavy duty features, the design of our valves will increase air flow capabilities. Resulting in increased horsepower. Our oversize exhaust valve will show a substantial performance gain in high performance applications. Both intake and exhaust will work with stock type keepers and retainers (although our #14-264 keeper set is recommended for all performance applications). All valves are sold per each.

 (2) Sold per cylinder. Eight required.

Rocker Arm Shim Kit

This kit allows "adjustment" of 66-77 rocker arms. By placing various size shims under the rocker pivots, proper valve lifter preload can be obtained. Instructions included. (Two kits sometimes required) PART NUMBER 18-068 PRICE: \$14.99

Adjustable Rocker Arm Kit

Complete kits convert the nonadjustable factory rocker arms to a fully adjustable setup. The use of these roller tipped rocker arms over the factory stamped steel arms will produce a significant increase in power. Plus with individual adjustability, the critical hydraulic lifter preload can be obtained. Resulting in an increase of as much as 20 horsepower! This kit is a total bolt on. No machining or special tools are required. Complete kits include rocker arms, with balls and adjusting nuts, guide plates, mounting studs and special length pushrods.

MUSCLE CAR "EXPERT" IS HAZARDOUS TO YOUR RESTORATION!

CUTLASS/4-4-2 IS ALL WE DO!

ENGINE COMPONENTS 14

Engine Rebuild Kits

Rocket Rebuild kits. Our engine rebuild kits include the same premium quality components that we offer individually, but at a discounted, package price. Due to the fact that we will need to know: Cylinder bore (standard or which oversize) for pistons and rings, desired compression ratio (when offered), crankshaft sizes for both rod and main bearings plus camshaft choice, orders for our Rocket Rebuild Kits will need to be phoned in.

64-67 330 Rocket Rebuild Kit

Our complete kit includes: Piston set (high or low compression), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-332 PRICE: \$1199.95

68-77 350 Rocket Rebuild Kit

Our complete kit includes: Piston set (low compression), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-334 PRICE: \$949.95

65 400 Rocket Rebuild Kit

Our complete kit includes: Piston set, ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters

Part number 14-336 PRICE: 1199.95

66-67 400 Rocket Rebuild Kit

Our complete kit includes: Piston set ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-338 PRICE: \$1359.95

68-69 400 Rocket Rebuild Kit

Our complete kit includes: Piston set, ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-340 PRICE: \$1349.95

68-76 455 Rocket Rebuild Kit

Our complete kit includes: Piston set (high compression - available .030 only), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-342 PRICE: \$1259.95

RECONDITIONED ENGINE PARTS 16

Reconditioned Connecting Rods

Selected rods resized to factory specs. Sold per rod. Sold on an exchange basis. See core information listed below. Rebuildable cores can be purchased at core price.

YEAR	APPLICATION	PART NUMBER	PRICE	CORE DEPOSIT
64-67	330 All models.....	16-010.....	\$30.00.....	\$25.00
68-72	350 All models (Exc.W-31).....	16-016.....	30.00.....	20.00
65-67	400 All models.....	16-012.....	30.00.....	45.00
68-76	400 & 455 All models.....	16-014.....	30.00.....	25.00

All reconditioned connecting rods are sold on an exchange basis. Only rebuildable cores can be accepted. Rods with spun bearings, bent I-beams, etc., cannot be accepted. Rods sold as cores require no exchange or deposit.

Reconditioned Harmonic Balancers

All reconditioned harmonic balancers are disassembled, castings are thermal normalized (to eliminate stress points), shot peened (to equalize external hardness), any striped threads are repaired and timing mark is indexed to crank keyway. High temperature silicone is then injected between the castings, and then platinum cured. A carbon steel seal saver is installed. In stock for the listings below. (Also see additional harmonic balancer listings on page 31). We can rebuild others not listed (W-31's, 330's, etc.). Call 503-641-1442 for details.

65-67 400 Harmonic Balancer

Reconditioned original harmonic balancers are now in stock for 1965-1967 400's. Due to the very limited supply of rebuildable cores, these are sold on an exchange basis only. We will need your balancer before we ship.
PART NUMBER 16-022.....Price: \$95.00

68-76 455 Harmonic Balancer

Reconditioned original 455 harmonic balancers are now available. Sold on an exchange basis. PART NUMBER 16-024.....Price: \$95.00 CORE DEPOSIT: \$20.00

Engine Parts Rust Inhibitor

Protects engine parts in storage from rust and corrosion. Forms a heavy, waxy film that lasts up to two years. Perfect for cranks, bare blocks, heads, etc. Or for long term storage of any non protected metal surface. 11 ounce spray can.
PART NUMBER 16-002 PRICE \$10.49

Used Engine Components

We have a continually rotating inventory of used engine components or "cores". Blocks, heads, cranks, intake manifolds, tin, etc. Because these are used engine parts, we cannot guarantee their constant availability. And therefore cannot assign them a part number. Please call with your needs. Keep in mind however, W-30, W-31 castings were rare even when new. Used ones just don't come through as often as they did years ago.

To insure quality, all used engine parts receive a thorough inspection before they go out our door. All are stripped down to their bare castings, hot tanked, magnafluxed and fully examined. This way you are always assured of getting a quality part. This also assures you of an accurate description of the part before you purchase. No B.S. And no surprises when you receive your order.

In order to guarantee the condition of each component, we do not sell any used complete engines or used short block assemblies.

Price always depends on condition. Therefore we cannot have any set prices on used engine parts. Please call for availability and description. Prices quoted at the time of your call apply to current inventory.

With the exception of blocks, all other used engine parts can be shipped via U.P.S. Blocks must shipped via truck. Shipping prices listed on the back of the catalog do not apply to any used engine parts.

Call 503-641-1442 for used engine parts information.
Or e-mail cat@supercarsunlimited.com

High Performance Water Pumps (New)

Brand new, light weight aluminum pumps (5 lbs). Fits all 22-050 applications listed above as well as race car applications using electric pump drives, etc. Hub height 5.556". Includes mounting gasket. PART NUMBER 18-142 PRICE \$79.95

Water Pumps (Remanufactured)

Brand new water pumps for the applications listed below are no longer available. The pumps we offer for these models are a very high quality remanufactured product. All include gasket. Sold on an exchange basis. See core information listed below. Please note these pumps will not have the original casting number. See our Number Match Water Pump listing.

ENGINE	YEAR	APPLICATION	PART NUMBER	PRICE	CORE
330	64	With or without AC.....	22-058.....	\$ 79.95...	\$ 45.00
330	65-67	Without AC.....	22-062.....	54.95...	15.00

455	71-72	w/o A/C, HD cool, W-30 or 3.73's.....	22-114.....	54.95.....	15.00

All our remanufactured water pumps are sold an exchange basis. Before submitting your core, make certain that it meets the following conditions: Pump must have fan hub attached. No cores can be accepted with cracked or broken housings. Be sure to return the core in its original box. See back pages for more core information.

Number Matching Water Pumps

We offer remanufactured water pumps with original casting numbers on a special order basis. We can supply a correct number pump for most 65-72 applications. Although we have a fair supply of most numbers, some applications may take up to four weeks to provide. All pumps are priced as part number 22-110. PRICE: \$129.95 CORE DEPOSIT \$15.00. While we will need a core, it does not need to be the original number. See core information above. All pumps include gasket.

COOLING, HEATING & AIR CONDITIONING 22

Water Pump Pulleys

Correct reproduction of the original two groove KE code water pump pulley as used on all 1968-1969 V8 applications without A/C, H/D cooling or W-30. Part Number 14-330
PRICE: \$59.95

More water pump pulleys available soon. Call or see our web site.

Heater Cores

Brand new US made heater cores with correct fitting angles as used on Oldsmobiles.

FILTERS 24

K&N Air Filters

We recommend using K&N air filter elements for many reasons. First being performance. The unique design decreases restriction allowing improved airflow and power. Even a dirty K&N filter outperforms most new filters! K&N filters are totally washable. They can be cleaned and recleaned over and over again. In fact, K&N puts a "Million Mile Warranty" on their filters. So do they *filter*? You ask. Check out the winning Baja 1000 vehicles. The oil saturated cotton design absorbs dust and dirt on the outside of the filter. Allowing only clean air in. Especially recommended on Force-Air applications. To find the filter for your application, refer to the part number on the previous page, and cross over the number on the chart below.

SUPERCARS AC NUMBER	SUPERCARS K&N NUMBER	PRICE
24-006.....	24-064.....	\$ 54.95

As used on 66-67 W-30. PART NUMBER 38-160 PRICE: \$24.95

Alternator Conversion Harness

This harness allows you to upgrade an externally regulated alternator to the newer internally regulated style alternator. Fits all applications with an external voltage regulator. PART NUMBER 38-184 PRICE: \$19.95

Wire Harness Assemblies

Whether you need to completely rewire your entire car or just need a short harness to add an option, we offer virtually any 64-72 wiring harness. All are exact duplicates of original equipment, reproduced based on the Oldsmobile factory blueprints. All feature correct wire color and length, authentic terminals and boots, even the original type tape is used. And is even tied off on the ends just as the factory did. All harness assemblies are made to order, based on your specific application. No confusing semi-universals. Please call or e-mail for a quote.

CORE INFORMATION AND PRICES

Starters are sold on an exchange basis. Before submitting your core, be certain that it meets the following conditions:

Units must be complete and assembled. Units that have broken housings, or have been involved in a fire cannot be accepted as cores. Be sure to return the core in its original box. See how to order section for more information on exchange parts.

CORE VALUE FOR ALL STARTERS: \$30.00

Starter Shims

Used between starter and block. Sometimes required for proper starter to ring gear mesh. .015 thick. Sold per each.

YEAR	APPLICATION	PART NUMBER	PRICE
64-77	All V8.....	40-054.....	\$.99

Super High Torque Mini Starter

Our Super High Torque Starter cures the hard to start condition common with modified big blocks. The gear reduction design provides a 50% increase in torque over a Delco starter. Yet uses half the amps required for starting. Weights less than half of an original Delco starter. By design, it is virtually unaffected by heat. And will clear most aftermarket oil pans and headers. Our racing starter features all brand new components (no rebuilt parts!) and uses heavy duty bearings rather than bushings found on other "high performance" starters.

YEAR	APPLICATION	PART NUMBER	PRICE

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

12 Bolt O Axle Information

The 12 bolt O axle was used under most 1967-1970 Cutlass, 4-4-2, Hurst/Olds and Vista Cruisers. Housing can be identified from the chart above. Internally, the O axle features an 8.5" ring gear. Which is attached to the carrier by 10 bolts (this 8.5" 10 bolt ring gear is not the same as the 1971 and newer 10 bolts). All use 28 spline axle shafts except the 1967-1968 models originally equipped with 3.42 thru 5.00 gears. These use 31 spline axles. The 31 spline models also use larger carrier bearings than the 28 spline models. 1967-1969 axle bearings are a sealed ball bearing design. 1970's axle bearings are an open roller design lubricated by the differential oil. All O axle shafts are retained by a four bolt flange (not internal C-clips). All use a 1.626" diameter, 27 spline pinion stem. Three different carriers were used depending on ratio. 2.56-2.78, 3.08-3.23 and 3.42 thru 5.00. These have different pinion centerline to ring gear mounting flange offsets. Anti-Spin models (Oldsmospeak for "posi") are clutch type differentials. Which utilize an "S" shaped spring to provide pressure against the clutch packs. See our web site for more 12 Bolt O Axle info.

Differential Overhaul Kits

Our kits include all the necessary components for a differential overhaul and/or a ring and pinion change. All kits include: carrier bearings/races, pinion bearings/races, ring gear bolts, crush sleeve, an assortment of case side shims, pinion lock nut, marking compound, Loctite, pinion seal and cover gasket. All kits work with open or Anti-Spin differentials.

YEAR	APPLICATION	PART NUMBER	PRICE
64-67	All B or P 10 Bolt differentials.....	46-112 (1).....	\$ 159.95
67-68	O axle with 3.42 thru 5.00 ratio.....	46-116.....	159.95
67-70	All O axle (exc. 67-68 with 3.42 to 5.00 ratio)....	46-114.....	159.95
71-76	All 10 Bolt B-O-P differentials.....	46-192.....	129.95

NOTE: (1) Will not fit six pinion models.

Anti-Spin Overhaul Kit

Our Anti-Spin overhaul kit contains all the necessary parts to rebuild a weak or slipping "posi". Our kit also improves the effectiveness of the factory unit by using a stronger spring. While the original spring provided 200 psi of force, our spring increases the pressure to 300 psi. This stronger side pressure ensures both tires will provide equal traction even with slicks! Kit also includes both clutch packs, an assortment of clutch to case shims (required for proper setup) and a bottle of 46-066 additive.

YEAR	APPLICATION	PART NUMBER	PRICE
67-72	10 or 12 bolt "O" axle with Anti-Spin.....	46-120.....	\$219.95

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Crush Sleeve

This sleeve is required when overhauling a differential or replacing pinion bearings. Our correct reproduction allows proper preloading of the pinion bearings.

Correct original style bearing. US made.

ENGINE	YEAR	APPLICATION	PART NUMBER	PRICE
330-455	64-76	All manual trans.....	10-034.....	\$ 29.95

Pilot Bearing Adapter

Our new pilot bearing adapter is an innovative way to convert an automatic crankshaft for use with a manual transmission. Until now you had to have an expensive factory M/T crank. Or have an automatic crank machined to accept a pilot bearing. This required removing the crank from the engine. An in-car conversion is now possible. By using the torque converter ring of the crank, our adapter bearing (not a bushing) assures the input shaft is dead centered with the crank. Installation requires only minor shortening of the input shaft or drilling a dead hole in the back of the crank (can be done with common shop tools). Instructions included. Fits all 260 thru 455 engines. PART NUMBER 10-070.....PRICE \$ 39.95

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Pressure Plate To Flywheel Bolt Kit

Complete kit includes correct bolts and lock washers required to attach pressure plate to flywheel. Fits all 64-76 V8's.....PART NUMBER 54-062....PRICE: \$9.99

Flywheel To Crankshaft Bolt Kit

Complete kit includes correct bolts and lock washers required to attach manual trans flywheel to crankshaft. Fits all 64-76 V8's. PART NUMBER 54-060
PRICE: \$10.99

Flex-Plate To Crankshaft Bolt Kit

Complete kit includes all special bolts and washers for attaching automatic trans. flex plate (flywheel) to crankshaft. Fits all 64-76 V8's. PART NUMBER 54-058
PRICE: \$10.99

Torque Converter To Flexplate Bolt Kit

Complete kit includes all special bolts and washers for attaching the torque conv. to flexplate. Fits all 67-77 models with TH400. PART NUMBER 54-056 PRICE: \$9.99

Muncie Input Shaft Wrench

This is the special thin wrench that is required to remove and tighten the main drive gear retaining nut. Replaces GM tool #J-0933-03 and improves on it with a better fit. We also include a new nut to replace ones damaged by not using the proper tool and from being used too many times. (Nut is staked in place after tightening). Fits all Muncie 4 speeds. PART NUMBER 46-122 PRICE: \$39.95

Splined Clutch Alignment Tools

Required for proper clutch alignment.

Core Support Mounts

Original style square core support mount bushings. Steel insert and bolt not included. Fits all 64-72 models. Sold per pair. PART NUMBER 48-032. PRICE \$12.95

WEATHERSTRIP & RUBBER PARTS 50

In Section 50-, we have compiled an extensive listing of weatherstrip and rubber parts. All are premium direct replacements of the original part. No universals as available elsewhere. For weatherstripping, we carry Metro Moulded Parts Supersoft line. Our experience has shown this to be a superior product over other available weatherstripping. Metro makes all their weatherstripping in the U.S., and all are ozone and UV resistant using the latest compounds. Guaranteed to last with a 15 year warranty! We have found Metro's attention to detail also surpasses others on the market. All feature the original shape and molded ends. Their Supersoft weatherstripping also offers another bonus not found in other brands - you will be able to shut your doors after installation!

Holiday Coupe Or Sport Coupe?

Throughout this section we will refer to "Holiday Coupe" or "Sport Coupe". Sport Coupes are often called "post coupes". Because they feature a post between the door and rear side glass. This post stays in place when all side glass is down. Sport Coupes have a metal framework running the perimeter of the door glass.

Holiday Coupes have only a roll up seal and a small piece of chrome dividing the door glass and rear side glass. No divider is visible when the door and rear side glass is down.

If you are still unsure of which model you are working on, just have your VIN ready when you call to order.

Moulded Door Weatherstrips

Authentic reproductions. Correct in all details, with moulded ends. All clips included. Sold in pairs.

(2) Also correct for 69 Hurst/Olds.

BODY, INTERIOR, TRUNK & UNDERHOOD 52

1970-1972 Force-Air Cleaner Top Assembly (Original Style)

This reproduction air cleaner top assembly is correct in every detail to the original. Suitable for all out concours show cars. Produced with the correct smooth black plastic, this complete top assembly includes main body, flapper door, vacuum motor, foam seal, and hold down springs. Licensed GM Reproduction.

ENGINE	PART NUMBER	PRICE
350	52-312.....	\$499.95
455	52-310.....	499.95

1970-1972 Force-Air Cleaner Top Assembly (Reproduction Style)

This reproduction air cleaner top assembly is a very close duplicate of the Force-Air cleaner as used on 70-72 applications. One change was made to improve the original design. The vulnerable stock hinge has been changed to a piano type hinge to improve reliability. Because of this change, this top assembly cannot be considered a "concours piece". However, for function and a close to original appearance at a lower price than the Original style top assemblies listed above, this top is way to go. Produced in black plastic as original. This complete top assembly includes the main body, flapper door, foam seal, our original style vacuum motor and hold down springs.

ENGINE	PART NUMBER	PRICE
350	52-046.....	\$449.95
455	52-044.....	449.95

Race Car Air Cleaner Top

For 70-72 applications with a factory (functional) Force-Air hood. Stock Eliminator and Super Stock racers have benefited in performance by removing the flapper door assembly and cutting out the remaining top plastic. Resulting in a substantial increase in the ram air effect. Based on our reproduction style top listed above, our race car top duplicates this modification. Perfect for the weekend warrior who wants the most out of their W-Machine on the strip. Without having to cut up their expensive original top. NHRA legal for Stock and Super Stock. Our race car top can also be modified to provide the additional clearance required when using many aftermarket intake manifolds. Includes foam seal.

ENGINE	PART NUMBER	PRICE
350	52-246.....	\$229.95
455	52-244.....	229.95

PART NUMBER 52-018 PRICE: \$32.49

Strip-Calk

3M strip-calk is used for sealing out water from chrome trim clips, emblem mounting holes, etc. Black in color as originally used by GM. Often overlooked in the reassembly process, resulting in water damage to interior, trunk, etc. 3M strip-calk is sold as a box of 60' in 1' lengths.

PART NUMBER 52-302 PRICE: \$15.99

BODY, INTERIOR, TRUNK & UNDERHOOD 52

W-35 Rear Deck Spoiler

We offer a VERY good reproduction of the original W-35 spoiler. The 3 piece design duplicates the original as used on 69 Hurst/Olds and optional on 70 and 71 Cutlass S and 4-4-2 hardtops. (Can be used on any 68-72 model). All mounting hardware and instructions included. PART NUMBER 52-050 PRICE \$259.95

Trunk Lock Cylinder

Replaces the lock cylinder as used on all 1964-1972 applications. Includes keys and gasket. PART NUMBER 52-038.....PRICE \$16.95

Trunk Mats

Our trunk mats are precision die cut to the original size and shape using materials very close to the originals. The 64 thru 68 mats feature the correct Houndstooth pattern printed on heavy vinyl rather than the original rubber. The 69 thru 77 green/gray felt features the correct foam backing, but the top side is a bit darker than the original.

<Vista Cruiser pic here>

Our 1969 Vista Cruiser. Painted to match our race car (and trailer) in 1972 Nordic Blue and Royal Blue, the wagon is our all purpose vehicle. Used daily for parts chasing and post office drop offs. Its other duties include swap meet hauler, tow vehicle for the show cars and the race car. We also run it the Sportsman bracket at Portland International Raceway. This kind of use also makes it the perfect test car for our new products. We place high demands on our own Rockets in the real world. And we aren't about to try to sell you something that we wouldn't use on our own cars. We use what we sell!!

SUPERCARS UNLIMITED T-SHIRTS!

Our Rocket Power T-shirts feature a caricature of our Vista Cruiser on the back as shown and a small Supercars Unlimited logo on the front. These white, heavy weight, 100% cotton shirts are available in medium, large or extra large. Perfect for dinner parties, hot dates, etc. Be sure to specify size when ordering.

- BEWARE OF FAKES -

In an obvious attempt to create an association with our products, another supplier of Cutlass/4-4-2 parts has basically produced a duplicate of our catalog. Don't be fooled by imitators!

The items listed in this catalog are parts we have proven to be the best for your Olds. This comes from experience. Not from copying someone else. While there will always be wannabes, you can always count on Supercars Unlimited for the best products, service (and integrity).

ROCKET POWER!

For over 30 years, this 1967 has been our rolling test bed. It allows us to test and evaluate new products before we put them in this catalog. Bracket racing requires an extremely reliable and consistent race car. Which is really the same thing we all want in our street cars. You have many choices when it comes to parts for your Rocket. At Supercars Unlimited, Cutlass/4-4-2 is ALL we do! As dedicated Oldsmobile enthusiasts, you are always assured of getting only the best when you buy from us. We sell what works in an Olds.

<RACE CAR PIC HERE>

Our Super Pro 67 4-4-2 Quick Specs.

ENGINE: 1970 455. All internal components are listed in section 14- of this catalog. Including the 14-248 camshaft (.475" valve lift). External bolt-ons include Torker intake with 850 Holley, Hooker headers and a Moroso pan. MSD & Mallory ignition components with Accel 8.8 plug wires fire the VP green race fuel. Our 18-106 Super High Torque starter makes sure it comes to life.

TRANSMISSION: B&M Competition TH400 with transbrake (full manual shift, reverse shift pattern) and 300M input shaft. Hughes Performance Pro III series (4000 stall) converter. Hurst Pro-matic 2 shifter. B&M deep pan and Simpson blanket. Victory Performance Parts slip yoke (46-110).

REAR END: 1968 "C" axle 12 bolt with 4.33 pro gears. Mark Williams spool with Dutchman 35 spline axles. 9" Ford bearing ends, Victory Performance Parts yoke, LPW girdle.

MISC: Harwood 8 gallon fuel cell, Holley blue pump, Russell braided hose and fittings. Flowmaster mufflers. Auto Meter and SW gauges. Cragar wheels, M/T tires. Alston six point roll cage. Pyrotect camlock belts, Dedenbear delay box. Fiberglass hood and trunk.

PERFORMANCE: Our home track (Portland International Raceway) runs an 1/8th mile bracket race program. In its current form, our 67 4-4-2 has run a best ET of 7.03 at 95 MPH. With 60 foot times in the 1.40's. 3160 lbs (less driver).

See our web site (www.supercarsunlimited.com) for more information, pictures and updates.

HOW TO ORDER

You can order by mail, telephone, fax or on-line at our safe and secure web site www.supercarsunlimited.com We accept Visa, MasterCard, Discover and all American Express cards or prepaid orders. We no longer send ANY C.O.D. orders. We cannot ship to P.O. boxes. A street address is always required.

STORE HOURS: MONDAY THRU FRIDAY 9:00 AM TO 6:00 PM. PACIFIC TIME.

MAIL Please use our order form and fill in all the appropriate blanks, including all vehicle information. Please print or type. If we can't read it, we can't send it! Personal checks are accepted on all on orders up to \$50. All orders above \$50. should be made by a money order or certified check. PLEASE NOTE: Personal checks over \$50. MUST clear both banks. This will cause a 12 to 15 working day delay before your order can be shipped. All prices are U.S. funds. Make checks payable to: Supercars Unlimited. On Visa, MasterCard, Discover or American Express orders, be sure to fill in all appropriate information on the order form. Including expiration date. Be sure to add shipping charges. Our mailing address is: 13980 SW T.V. Hwy., Unit #5 Beaverton OR USA 97005-2304

PHONE We can accept Visa, MasterCard, Discover or American Express card orders. Tech questions, product information calls or orders requiring tech info, etc., please call 1-503-641-1442. Toll free ordering is available in the continental USA for placing orders only. Please have all catalog part numbers and quantities ready (you may want to write them down before calling). Also have your Visa, MasterCard, Discover or American Express card in front of you. As well as your shipping and billing address information. Our toll free number is 1-888-OLDS-442 (1-888-653-7442). Orders requiring tech information, etc., call 1-503-641-1442.

FAX Orders can be sent via fax 24 hours a day, 365 days a year. Please use our order form and include all Visa, MasterCard, Discover or American Express card information. Please do not shrink or reduce order form. And please, please print clearly! (thanks). Continental US Toll Free fax order line (orders ONLY) 1-888-653-8050. Fax number for international and non orders 1-503-641-3442. For fax confirmation call 1-503-641-1442.

CANADA, ALASKA, HAWAII AND PUERTO RICO SHIPPING INFORMATION

Do not use the above chart for shipping costs. Shipping costs for Canadian, Alaska Hawaii and Puerto Rico orders are as follows. MAIL ORDERS (Except credit card), Add 20% to invoice total. (All Canadian non credit card orders must be paid by a money order or bank draft payable in U.S. funds). CREDIT CARD ORDERS: (phone, mail or FAX) will be charged the actual shipping costs. **SHIPPING MINIMUM CHARGE: \$10.00.** Most orders are shipped parcel post air mail or U.P.S. PLEASE NOTE: Due to Canadian Customs regulations, we unable to ship any aerosol cans to Canada.

INTERNATIONAL ORDERS (Except Canada)

We ship Oldsmobile parts worldwide. You will need to contact us with a complete list of all items needed. We will then calculate the actual shipping cost.

MINIMUM SHIPPING CHARGE \$15.00. We can accept only Visa or MasterCard for payment on international orders. Most orders shipped via Priority Mail International or U.P.S. We cannot ship any aerosol (spray) cans outside of the U.S.

RETURNS

We have probably the easiest return policy in the industry. No authorization numbers, no hassles, and we won't hold YOUR money with an "in-house" credit! The only thing that we do **REQUIRE** is that you send a copy of the invoice. If your order was placed on a Visa, MasterCard, Discover or American Express card, you **MUST** include a copy of that receipt as well (or current card info). We do not accept ANY returns sent back C.O.D.

Returned item must be unused, undamaged and in original packaging. The following items are NOT returnable: Electrical parts, literature, paint layouts, 18- part numbers, or any special order item such as wire harness assemblies. If you have a problem with any part, please don't hesitate to call. We will do our best to accommodate your needs. Returns subject to a 15% restock fee.

SALES TAX

NO sales tax charged! Oregon has no sales tax. (And we won't charge you any "handling fees" either).

BACK ORDERS

We stock what we list in this catalog. However, there can be situations when we may be temporarily out of stock on a particular item. This will be indicated on your invoice. We will also note an approximate date of shipment. Back orders rarely exceed three weeks.

FREIGHT DAMAGED MERCHANDISE

Our shipping department operates under the philosophy that all outgoing packages are being sent to themselves for use at a major show or event. We go the extra effort to make sure that you receive your parts without the delay of freight damage. However, in the off chance you do happen to receive an item damaged in transit, you must first let the delivery company know of the problem BEFORE sending the merchandise back.

CORE INFORMATION

Some of the remanufactured products we list are sold on an exchange basis. These parts have what is known as a "Core Deposit" (or Core "Charge"). Any item requiring a core deposit has the charge indicated with the part number/product listing. You can pay the appropriate deposit when you order. Or you can avoid paying the core deposit by sending your cores in with your order. Cores returned after purchase must be received by us no later than 60 days of receipt for a full refund. Fifty percent of core value will be refunded on any core received after 60 days. All core returns must be shipped pre-paid. We cannot accept any returned cores shipped C.O.D. Any core deposit paid on a credit card will be credited to that account. Please include all current card information. Be sure to follow specific core info listed along with the part. Cores **MUST** be returned in original mfg. Box.

PRICES

We will maintain the prices listed in this catalog for as long as possible. However, with the many different products we offer, price changes are going to happen. If this is not a current catalog, please see the on-line shopping section of our web site for current prices. Or give us a call for current prices. We reserve the right to change prices without notice. Please note, PART NUMBERS will never change (no matter how old this catalog may be).

Will CALL

Although we are a "mail order" company, you may pick up orders here at our warehouse if you are in the area. All we ask is that you phone your order in one or two days in advance.

Supercars Unlimited catalog #17 copyright © 2008

In effort to preserve the environment for future generations, we use recycled, recyclable and biodegradable shipping boxes and materials whenever possible. Please join in our efforts by recycling the packaging. Thanks!

And please recycle this catalog by passing it along to a fellow Olds enthusiast when you are done with it.

- BEWARE OF FAKES -

In an obvious attempt to create an association with our products, another supplier of Cutlass/4-4-2 parts has basically produced a duplicate of our catalog. Don't be fooled by imitators!

The items listed in this catalog are parts we have proven to be the best for your Olds. This comes from experience. Not from copying someone else. While there will always be wannabes, you can always count on Supercars Unlimited for the best products, service (and integrity).
